

# The JobsEQ™ advantage

## Great data. Better decisions.

Today's global economy demands the right information.

JobsEQ™ mines economic, demographic and educational statistics to give state and local governments an edge in making better decisions about their economic future.

### The powerful JobsEQ™ online database gives you the information to:

- Match skilled workers with the needs of local industries.
- Prepare displaced workers for growing industries.
- Improve education and training so students can find local jobs.
- Evaluate shifts in the job market.
- Identify skill gaps to attract new jobs to your area.

JobsEQ™ delivers robust and reliable data – industry forecasts, entrepreneurial activities, labor inventory, employment trends, workforce productivity and much more – to help you create a vibrant and skilled workforce – one that's prepared for future growth and aligned to your regional economic development strategies.

*The state of Virginia has awarded an enterprise contract to **Chmura Economics & Analytics** (CEA) for JobsEQ™.
